

Cherry Blossom Fixed + Handheld Shower Head Combo 12L/min

Product Code: FSFSH25
Barcode: 6002844060732

Cherry Blossom Fixed + Handheld Shower Head Combo

2 in 1 shower system, multi function fixed base shower head that turns into full body handheld shower.

Fitment Instructions

- Use appropriate wrench or adjustable pliers to remove old shower head from arm.
- Ensure that arm is supported during removal to prevent damage to arm and causing a leak at wall joint.
- Clean threads on arm and remove calcium build-up.
- Check that flow regulator and washer / sieve units are in place in the new shower head.
- Check that the new head threads screw easily onto arm.
- Fasten head to arm, but do not over tighten.
- Check that arm / head joint is water tight. If leaks are evident, use PTFE tape to achieve seal.

The Cherry Blossom can transform into a:

Convenient wall-mounted showerhead with 2 luxurious settings or

A handheld shower with a 1.5m hose.

Operate both at the same time for a water-saving spa experience.

- Suitable for use in domestic and low pressure applications.
- Cost effective method of saving water and electricity.
- Flow rate not significantly affected by pressure change.
- Flow regulated to <12L / min @ 400kPa.
- Stainless steel mesh filter integrated into rubber washer to prevent grit entering the shower head body.
- Soft silicone nozzles can be rubbed with finger to remove calcium deposits.
- Brass swivel knuckle ensures durability and secure mounting to shower arm.
- Standard ½" BSP female threaded fitting suitable for fitment to all standard arms.
- Two functions

Suggested for

Cleaning/ Maintenance Without removing the shower head List of requirements:

- A plastic bag big enough to fully cover the shower head all the way around the neck.
- String, rubber band or insulation.
- White vinegar or lemon juice.
- Old tooth brush or similar brush.

Cleaning/ Maintenance Removing the shower head

If you decide to remove the shower head for cleaning purposes then you will need a pair of gas pliers. Please be sure to protect the knuckle joint from the plier's jaws so as to avoid scratches. To do this you will need a small piece of leather or rubber with which to wrap around the shower knuckle joint.

THE KIT CONTAINS

- 1 x Brass arm with flange
- 2 x filter gaskets (12L / min)
- 1 x 1.5m stainless steel shower hose with brass connections
- 1 x 3 - way diverter
- 1 x fixed shower head
- 1 x handheld shower head
