

# 1/2" Rose Bud Shower Head

9L/min (Durable white finish)

Product Code: FSFSH6  
Barcode: 6002844056643

## The 1/2" Rose Bud Shower Head

The average household shower expels approximately 15 litres of water per minute. A shower that has a water saving shower head fitted will expel approximately 9 or 10 litres per minute. Changing your normal non-energy efficient shower head to our energy efficient shower head can save you water, electricity and money every month.

- 70mm diameter.
- Suitable for use in domestic and low pressure applications
- Cost effective method of saving water and electricity.
- Flow rate not significantly affected by pressure change.
- Flow regulated to ≤ 9L / min @ 400kPa.
- Stainless steel mesh filter integrated into rubber washer to prevent grit entering the shower head body.
- Brass swivel knuckle ensures durability and secure mounting to shower arm.
- Standard 1/2" BSP female threaded fitting suitable for fitment to all standard arms.
- Adjustable spray

Water is precious. Use it wisely. With the Ellies Water Saving range start saving water, energy, money and help lay the foundation for a healthier planet.
