

Lotus Shower Head

10L/min

Product Code: FSFSH1
Barcode: 6002844056605

The Lotus Shower Head

The average household shower expels approximately 15 litres of water per minute. A shower that has a water saving shower head fitted will expel approximately 9 or 10 litres per minute. Changing your normal non-energy efficient shower head to our energy efficient shower head can save you water, electricity and money every month.

- 150mm diameter.
- Suitable for use in domestic and low pressure applications
- Cost effective method of saving water and electricity.
- Flow rate not significantly affected by pressure change.
- Flow regulated to < 10L / min @ 400kPa.
- Stainless steel mesh filter integrated into rubber washer to prevent grit entering the shower head body.
- Soft silicone nozzles can be rubbed with finger to remove calcium deposits.
- Brass swivel knuckle ensures durability and secure mounting to shower arm.
- Standard ½" BSP female threaded fitting suitable for fitment to all standard arms.
- Single function wide spray.
- Full body spray.

Water is precious. Use it wisely. With the Ellies Water Saving range start saving water, energy, money and help lay the foundation for a healthier planet.
